TinyHosting Limited

Value Added Tax Explained

Revision date: 04/09/16

All services provided by TinyHosting Ltd ("TinyHosting Ltd") are subject to Value Added Tax ("VAT") where applicable. Some services and products are exempt and where this is the case VAT will not be charged.

All our prices listed on our website via www.tinyhosting.net and www.mytinyhosting.net include VAT.

VAT is only payable to United Kingdom ("UK") resident which includes:

- England
- Scotland
- Wales
- Northern Ireland

If you live in a country other than those listed above then the prices you see do not include VAT for your country as we are only subject to VAT within the United Kingdom.

Our prices include VAT for UK residents as we pay the VAT rate from the prices shown where as country outside of the UK as UK VAT is not payable there is no extra cost.

Invoices will still show VAT as being charged however this is not the case for None UK residents.

Please be aware that EU residents are subject to other VAT rules.
